Opting Into Loan History

BiblioCommons does not display loan history, but patrons can see loan history in their account in the CARL Catalog ("Old Catalog") and in the InfoSoup app.

Please note, opting into loan history will save history *going forward*, but does not retroactively populate the history.

To opt into loan history

- Go to www.infosoup.org and scroll down to "My Account" under "Old Catalog"
  - Or go directly to https://catalog.infosoup.org/?section=MyAccount
- Log in with library card number and PIN
- Along the left-side, click "Opt-In &Notifications"
- Check the box "Save my loan history."
